

YOU'RE STEPS AWAY FROM BETTER LIGHTING

LED GAS STATION LIGHT

80W/100W/120W/150W

GS-01-G7

Fine workmanship and
elegant appearance,
Easy to install.

CLASSIFICATIONS

Zone 1, Zone 2, Zone 21, Zone 22.

INDUSTRIAL LED LIGHTS

IP65

P1 Recessed Installation Frame (standard)

Nicely Design, Easy to Install

P2 Surface mounting installation

IP65 water-proof

Easy Installation

AC100-277V 50/60Hz

140Lm/w

Options

Driver

Sosen Driver

Voltage

AC100-277V

LEDs

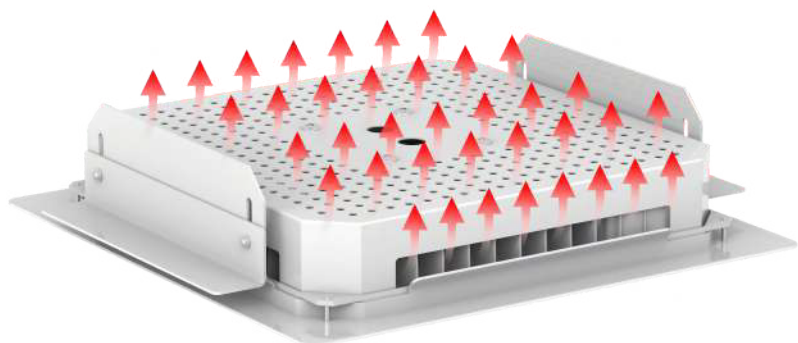

Lumileds

CCT

3000K
4000K
5000K
5700K

Perfect Heat dissipation

- ▶ ADC12 aluminum body, Die-cast aluminum construction with high tech industrial grade heat sink provides better heat dissipation to prevent over heating.
- ▶ Air convection design, for high heat conductivity and quickly heat dissipation.

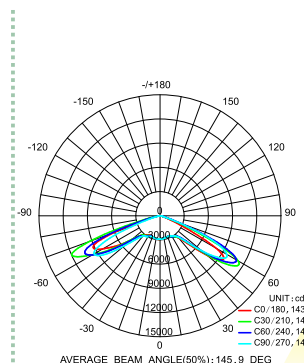

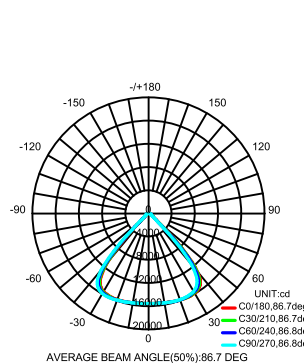

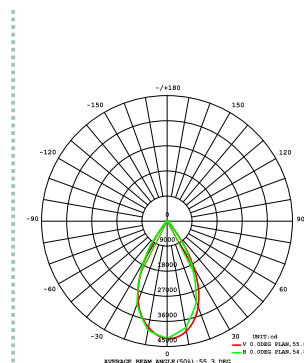

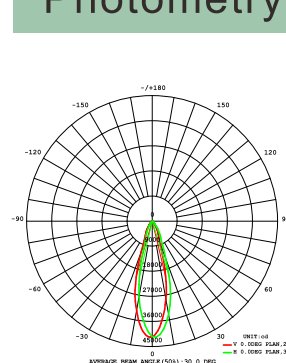

IP
65

Better Waterproof

- ▶ Real Protection class IP65 waterproof.
- ▶ IP65 waterproof connector

Photometry

Microwave Motion Sensor Options

(Extra Remote Control Options).

Beam Angle: 30°/60°/90°/150°

1. IK10 Anti-UV PC Lens
2. >95% Light Transmission

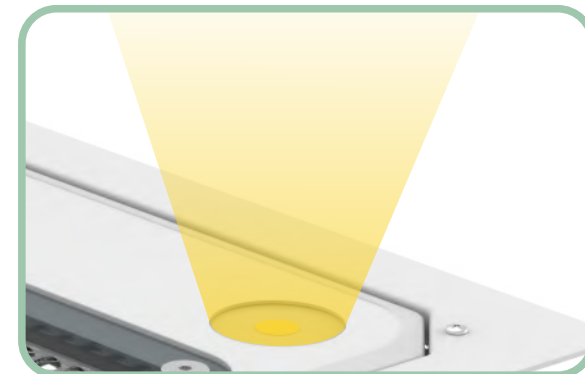

LED: LUMILEDS

High efficiency and Energy saving Leds

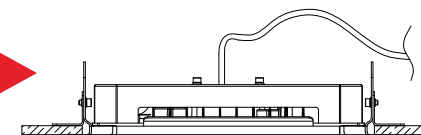

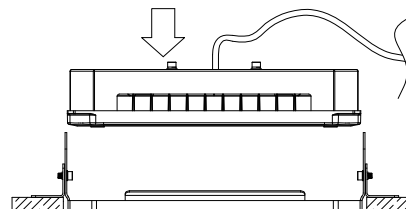

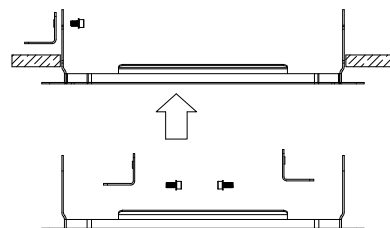

Emergency Function

1. Emergency Power: 6W
2. Discharge Time: 1.5Hrs

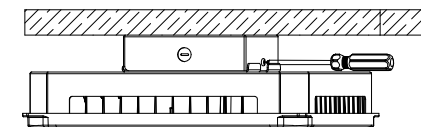

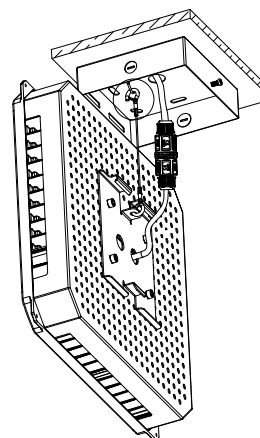

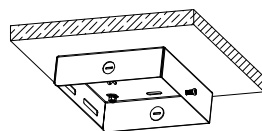

P1

P1 Recessed Installation Frame (standard)

P2 Surface mounting installation

P2

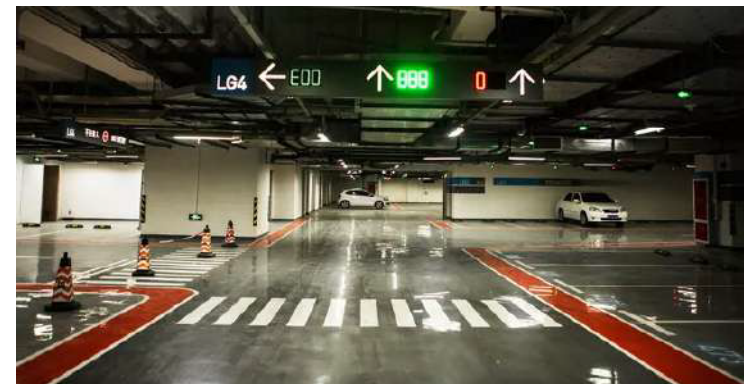

Brown(Black) -- L
Blue(White) -- N
Green/Yellow -- GND

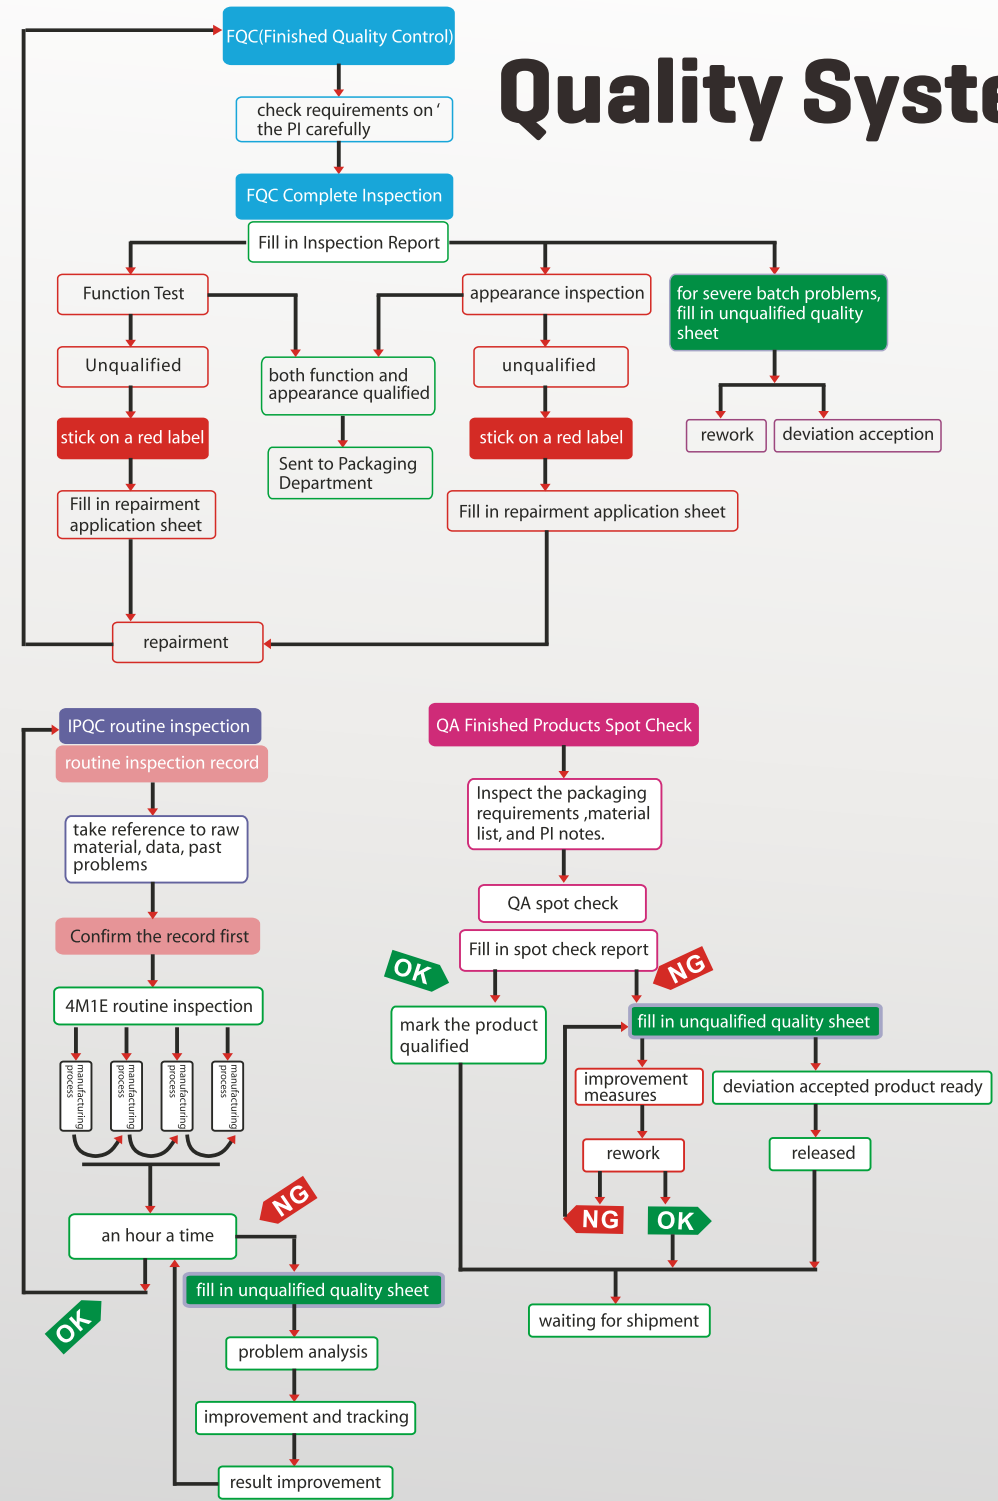

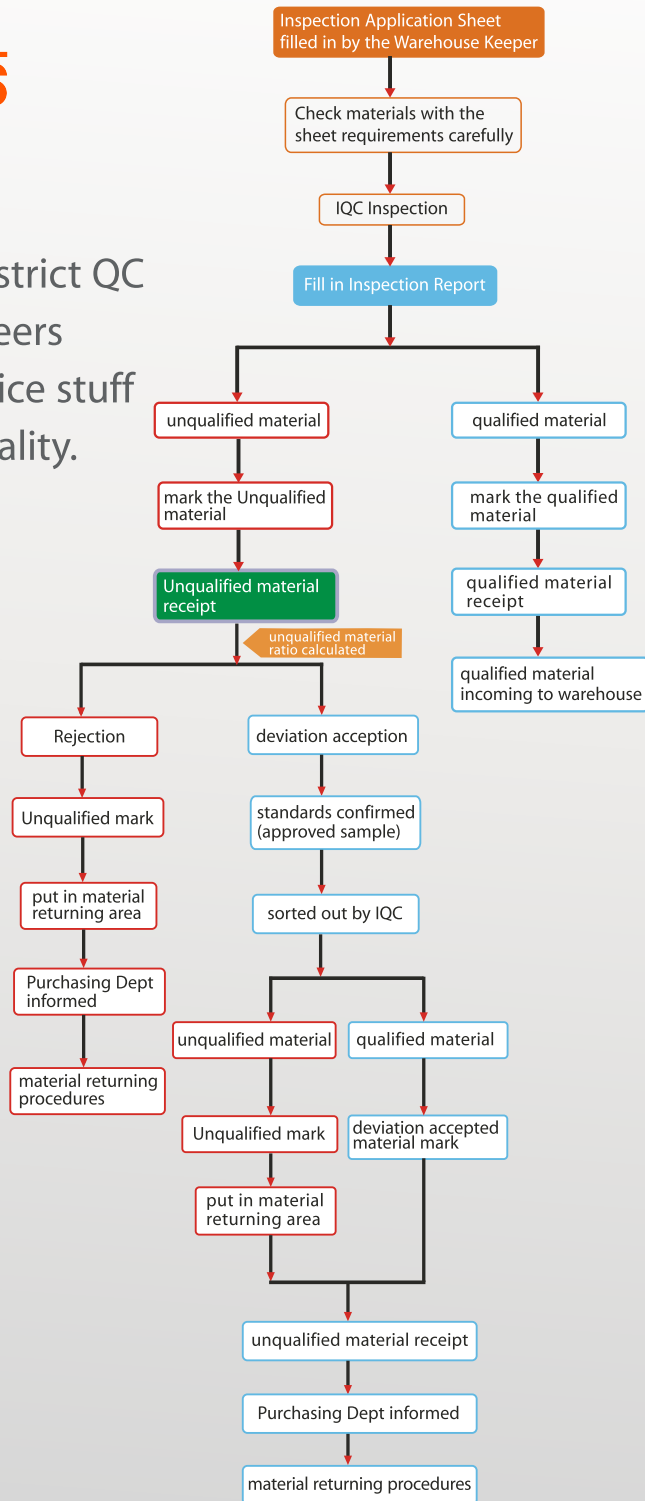

Application

The LED Gas Station Light provides an energy saving solution ,it can be used in Gas staion area,Mining area,Refineries,Fuel deports,chemical production processing, Food processing and other commercial places.

Examination from strict QC technicians, engineers and customer service stuff to ensure good quality.

Quality Control Flowing Chart

Quality System

Focus on High Quality LED Industrial Light Since 2008
